Continually Finding and Deploying the Best Talent

We understand that staffing for the ERP positions that support our clients' business operations requires unique skill sets and experiences. We recruit and deploy highly qualified consultants, project managers, senior leadership, architects, developers, analysts, team leads, with the skill sets required to design, develop, implement and support their applications. Our recruiting team is serious about quality of service and seek out consultants who take a "customer service first" approach.

Going Above and Beyond

As a provider of ERP staff augmentation services, we are keenly aware of the ever-changing needs of our clients and the importance of building solid, lasting partnerships. Our proprietary network of over 2,000 ERP professionals' gives you access to high-caliber, carefully screened talent that can't be found elsewhere.

Since Fusion was founded, we've developed ongoing relationships with our clients and contacts in the field to quickly and confidently locate the talent needed. The utilization of all of these recruiting efforts makes us a valuable ERP staffing partner. As a result, projects run smoother, challenges are met more quickly, and clients are more satisfied.

Fusion feels that making ERP resources available at the right time, at the right price for a specific duration solves many problems of end-customers as well as partners.
