Telecom Services

We provide top integration and infrastructure consultants for telecom operations.

Fusion Solutions is a leading provider of telecom technical staffing services for Fortune 1000 companies. We're knowledgeable of and have worked with virtually all types of telecom infrastructure technologies. With a team of experienced telecom recruiters and a large and growing database of telecom talent, we can rapidly respond to a wide range of requirements with well qualified consultants. We provide the same capabilities as the multi-billion dollar technology staffing companies without all of the overhead and bureaucracy.

Our client list includes many of the major global telecom companies. We have built long term relationships with our clients by recruiting and deploying the best telecom talent and providing them with a wide range of workforce optimization solutions.

We provide individual staff members in contract and contract-to-hire roles. We also provide search services for full-time hires. In addition, we configure teams of technical personnel for large scale project requirements.

Our people are continually evaluating emerging technologies to develop the most effective solutions for the organizations we serve. Below is a list of some of the solutions for which we have been engaged:
